Dear Sir:

Enclosed is a photocopy of the Filing Receipt from the United States Patent and Trademark Office in the above-identified application showing requested corrections.

The Domestic Priority data is incomplete:

Please insert the provisional patent application data so that corrected filing receipt recites the following:

This Application claims the benefit of 60/588,132 03/31/04.

Applicant previously submitted a request for a corrected filing receipt on December 13, 2004. Applicant recently received a response to said request, dated December 30, 2004. The response denied the request for the corrected filing receipt since "[a] claim for priority cannot be made based on an application filed after the application making the claim". Clearly, the provisional application was filed on March 31, 2004, sixteen days before the filing of the instant application. Therefore, the instant application is making a claim of benefit to an application filed

previously and not after the instant application. As such, Applicant respectfully requests reconsideration for the request for a corrected filing receipt.

Correction of the records of the United States Patent and Trademark Office and issuance of a corrected filing receipt are respectfully solicited.

Respectfully submitted,

MERCHANT & GOULD P.C.
